

Please send a snack with your child if they desire one afterschool.

We will be using up what we have and we will provide the time for a snack and will keep water to refill their water bottles as well. We will have crackers for an "emergency".

We are so sorry for this inconvenience as we always tried to serve nutritious snacks. There are positives with this situation- you control what your child is served and it will help offset the costs of the minimum wage increase of \$1 per hour in January.

### *Homework and Schedules*

At the sites, please let the staff know if you want your children to start their homework with us.

Please give your child's schedule to their teachers. We do not have the capability to keep them informed as things change. We provide them with a roster of which children are registered with us but that does not tell them which days they will attend.

Let us know when things change by email or written note please.

Same day absences should be called in to the specific site.
