

In Memory of Dr. Douglas Price

It is with deepest sorrow that the Governing Board and Administration of Tanque Verde Unified School District acknowledge the passing of our former Superintendent, Dr. Douglas Price, on August 15, 2017 after a short but courageous battle with a terminal illness.

Those who had the great fortune to know him will remember Dr. Price as a remarkable, charismatic and visionary leader, whose genuine love and concern for the students and staff of our district were unwavering. His legacy will live on here for each of us who knew him.

One of Dr. Price's favorite quotes graces a bench outside our district office which was dedicated to him at his retirement in May, 2015.

"Be not simply good ~ be good for something." Henry David Thoreau

Doug Price was a positive and innovative force for good in our district. ~ Where we are as a district now, and where we will go in the future, are largely a result of all that he did for us during his six years with us here.

Our thoughts are with Dr. Price's family and loved ones during this time of loss.

Private services are being planned. There may be a memorial service for friends and colleagues planned for a later date.
